DUTIES OF POSITION (if this position is announced at multiple grade levels, these duties describe the full performance level; at lower grade levels the duties may vary slightly and will be performed under somewhat closer supervision.)

Incumbent performs in-depth inspections at assigned gaseous diffusion plant during operation. In carrying out assigned responsibilities, the incumbent assures that the inspection program is completed in accordance with schedules specified in the Inspection Manual or other official documents. Participates in planning the scope of inspections at assigned plant. Prepares reports of inspection which contain a description of observations made and conclusions reached regarding conformance with NRC requirements, provisions of operating certificate and applicable industry codes and standards.

QUALIFICATIONS REQUIRED (if the position is announced at multiple grade levels, these qualifications describe the full performance level, unless otherwise specified. The position description, immediate supervisor, and/or NRC Manual chapter and Appendix 4108 can be consulted for more detailed qualification requirements and/or interpretation of qualifying experience.)

Candidates may meet the basic qualifications required by:

- (1) Having at least one year's experience at the next lower grade level in the occupation series listed above; or
- (2) Possessing a knowledge of the theory, principles and practices in a field of engineering as evidenced by a bachelor's degree and 2 years experience or equivalent combination of education, training, and experience that would be eligible for certification through alternative
